SUMMARY

Proactive lifelong learner focused on bridging the gap between current systems and next-generation technology.

SKILLS

Python | Django | Flask | FastAPI | AI & ML | AI Prompting | AI Productivity | React | Next | JavaScript | HTML | CSS | SCSS | Tailwind CSS | C# | NET | MySQL | Git | Agile/Scrum | Agentic AI | Scikit-Learn | Azure

PROJECTS

Personal Portfolio -

[Live Demo](#)

- Designed logical navigation for easy exploration of journey, skills, and projects; received positive user feedback.
- Built the front-end using React and styled with SCSS for a modern, responsive design.
- Utilized Git for version control and Netlify for seamless deployment and continuous integration.

Meta Developer Capstone Project: Little Lemon Website -

[Live Demo](#) | [Code On GitHub](#)

- Modernized Little Lemon's online presence with a responsive front-end (HTML, CSS, JavaScript, React).
- Implemented interactive menu, online reservations, meta tags (SEO), and OG protocol (link previews).
- UI/UX informed by Figma; Git/GitHub for version control. Focused on performance and accessibility.

Microsoft GenAI Integration Project: Mind Vault -

[Live Demo](#) | [Code On GitHub](#)

- Validated practical AI Integration as the capstone for the Generative AI Specialization.
- Gained hands-on insight into AI strengths and limitations.
- Reinforced the critical need for human oversight in vetting AI content and solving complex challenges.

For a complete list of my Projects and development work, check out my [Personal Portfolio](#), [GitHub](#), and [Kaggle](#).

WORK EXPERIENCE

Open-Source Contributor

2024 - 2026

Self-Directed

- Converting technical specializations from FAANG programs into documented, open-source projects.
- Simplifying complex engineering concepts into accessible guides for new developers.
- Building and sharing reusable code to help others jumpstart their own tasks.

Technology Writer & Analyst

Oct 2024 - Mar 2026

Medium

- Authored and published technical articles on software engineering and generative AI, demonstrating strong research and communication skills.

CERTIFICATIONS

- Microsoft Full Stack Developer Professional Certificate** - Microsoft [\(Completed: 2025\)](#)
- Generative AI for Software Developers Specialization** - Microsoft [\(Completed: 2025\)](#)
- Meta Front-End Developer Professional Certificate** - Meta [\(Completed: 2025\)](#)
- CloudNative, DevOps, and NOSQL Essentials** - IBM [\(Completed: 2025\)](#)
- Google Prompting Essentials** - Google [\(Completed: 2024\)](#)
- Google AI Essentials** - Google [\(Completed: 2024\)](#)
- Speak English Professionally** - Georgia Tech [\(Completed: 2024\)](#)

EDUCATION

Virtual University of Pakistan:

Bachelor of Science in Software Engineering

Karachi, Pakistan

2025 - 2029
